Nine Men's Morris

EUROPE · 2 PLAYERS

Setup. The board starts empty. Each player has 9 stones of their own colour (coins or buttons, up to 18 mm).

---

1. Place, then slide.

Take turns putting one stone on any empty point. Once both have placed all nine, each turn slide one stone along a line to the next empty point.

2. Three in a row is a mill.

Three of your stones on one straight line make a mill. Each new mill takes one opposing stone off the board: one outside a mill, if there is one.

3. How to win.

Leave your opponent with two stones, or with no move. A player down to three stones may jump to any empty point.
